Welcome Greetings to the Graduates

The pomp and ceremony of convocation exercises formally mark an important life transition for you, our graduates. Surrounded by proud families, friends, teachers and mentors, you may now move forward with confidence, having earned our admiration and praise.

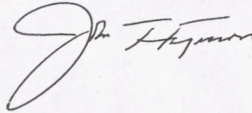

Each of you submitted to a rigorous intellectual path and each has proved worthy. Today, you mark an important milestone in your life while we, your community, mark an important one in ours. Ninety-six years ago, the University of Alberta was founded on a scrubby piece of riverbank by men and women who believed this province should be built on a foundation of knowledge.

At that time, our founding president, Henry Marshall Tory, promised that the knowledge within these walls would not remain here, but would flow forever outward in service to our community. Today, you join more than 190,000 University of Alberta alumni worldwide in fulfilling that promise.

Since 1908, our community has grown beyond the borders of Alberta to encompass the world in one global community. Learning to live peacefully and prosperously in this community will require leaders and citizens of vision, commitment and drive. More than ever, the world needs leaders and citizens like the people you have become.

While today may seem like an ending, it is not. Today is the beginning of the next leg of your journey. You will continue to grow and to learn and you will continue to be a life-long member of the University of Alberta community.

Welcome and Congratulations.

John T Ferguson, FCA, LLD (Hon)
Chancellor

Universities began as small collections of scholars who worked together to preserve and advance knowledge. Students came to study with them and, in due course, an administrative structure arose to provide system and recognition for those studies. This ancient structure is preserved at the University of Alberta, with the faculty and the students providing the core of the University's purpose: teaching and the advancement of knowledge.

The faculty and staff congratulate you, the graduates, on the successful completion of your present studies which is recognized by the degrees to which you are admitted today. We hope your present knowledge provides a sound base for an education which will continue throughout a rewarding life. To quote Honorary Degree Recipient Tommy Banks: "Try to be a good person. You will be amazed how rewarding it is."

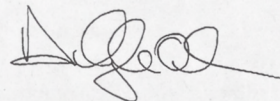

Congratulations from the Faculty and Staff!

Throughout life there are but a few special milestones that can leave a lifelong impression in one's mind. Without question, convocation is just such an event. As you celebrate this achievement with your family and friends, I am pleased to extend my sincere congratulations on behalf of the Government of Alberta.

Graduating from university represents a great turning point in your lives. As one chapter of your life comes to a close, a new one is set to begin, filled with opportunity and promise. For some, it will mean working toward career goals, while for others it may mean going on to further education or reaching goals in your personal lives. Whatever path you choose, I hope you embrace it with the same enthusiasm and determination you have exhibited at the University of Alberta.

You have invested a great deal of time, commitment and dedication toward achieving this goal. Take pride in your accomplishment and always remember you can accomplish anything you set your mind to.

Congratulations once again, and best wishes for continued success.

Dr Lyle Oberg, Minister
Alberta Learning

The President then addresses the candidates in these words:

"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Do you solemnly promise to conduct yourself in all things loyally and faithfully to the honour of your University, the encouragement of learning, and the good of your country?"

Each candidate replies:

"These things I pledge myself to do."

The Admission

The Chancellor then addresses the candidates in these words:

"By virtue of the authority vested in me by the Legislature of this Province, and with the consent of this University, I admit you to the degrees to which you are entitled, and invest you with all the powers, rights, and privileges pertaining to such degrees. I charge you to use them for the glory of God and the honour of your country."

Honorary Degree Recipient

Linda J. Hughes

Ms Linda Jean Hughes of Edmonton, president and publisher of the *Edmonton Journal* and general manager, Alberta Region, for CanWest Canadian Media, is a leading figure in Canadian media.

Ms Hughes is the first woman in Canada to hold the position of publisher of a major newspaper. She began her career in journalism upon graduation from the University of Victoria (1972 Honors BA) when she was hired by the *Victoria Daily Times*. She covered education and provincial politics and became chief of that paper's legislature bureau. In 1976 she joined the *Edmonton Journal*, covering civic and provincial politics. In 1977 she received a Southam Fellowship to study at the University of Toronto. She returned to the Journal the following year and joined its Editorial Board. A rapid progression of newsroom management positions followed, including city editor (1981) and editor-in-chief (1987), and by 1992 she had assumed her current position as president and publisher. In 2003 she was named general manager, Alberta Region, for CanWest Canadian Media. CanWest's Alberta holdings include the *Journal*, the *Calgary Herald* and Global television stations in Edmonton, Calgary and Lethbridge.

It has been written of Ms Hughes that she recognizes the importance of bringing academia into the public forum so as to prepare an informed citizenship in a democratic society. Her leadership at the *Edmonton Journal* is proof of that recognition. Under her direction the Journal has increased the reach and depth of its coverage, received numerous national awards for editorial writing, spot reporting, photography, arts coverage, column writing and features editing and, as a result, attained a reputation for excellence. It has also kept issues in research and education before the public in its news reports and editorials and has provided many gifts-in-kind of publicity for educational conferences, seminars and events.

Deeply committed to her community and to public education, she volunteers with many community organizations including the Winspear Fund and the Alberta Heart Institute and is currently chair of the board of directors of the United Way of the Alberta Capital Region. She has served on numerous professional organizations including the Canadian Media Research Consortium Advisory Board and the Board of Governors of the National Newspaper Awards. At the University of Alberta she has served in a number of roles. She is a member of the management committee for the Centre for Constitutional Studies, she has been a member of the Faculty of Medicine Visiting Committee, and she chaired the University's 2001 conference on Education and Research in the New Economy. She is a member of the board of the Social Sciences and Humanities Research Council of Canada and is also on the Norquest College Foundation.

A recipient of numerous awards, in 1997 Ms Hughes received an Honorary Degree from Athabasca University, in 1999 she was awarded an Honorary Diploma from Grant MacEwan College and in 2000 she received the Distinguished Alumni Award from the University of Victoria. In 2002 she was presented with the Trailblazer of the Year Award, a national honor given to Canadian women in communications. This year, *Alberta Venture* magazine named her as one of the 50 most influential people in Alberta.

One of Canada's major communicators, Ms Hughes has forged a career of exemplary brilliance that has served as a model to students and to members of the community alike.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Ms Linda Jean Hughes:

Lucy Maud Montgomery, *Anne of Green Gables*. Boston, LC Page, 1908.

Montgomery wrote her first novel in 1904-1905, and it was rejected by five Canadian publishers before being accepted by Page in 1908. (The first Canadian edition appeared in 1943.) Surely the most beloved book in Canadian literature, it is perhaps the best selling and has never gone out of print. The story of Anne Shirley, the delightfully talkative redheaded orphan from Prince Edward Island seeking her place in the world, has won readers from around the globe. This is an extremely rare first edition.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

The Presentation

The Dean of the Faculty of Graduate Studies and Research presents the candidates for degrees with these words:

"Eminent Chancellor and President, on behalf of the Faculties, I present to you these scholars and ask that they be pledged and admitted to the degrees to which they are entitled."

The Pledge

The President then addresses the candidates in these words:

"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Do you solemnly promise to conduct yourself in all things loyally and faithfully to the honour of your University, the encouragement of learning, and the good of your country?"

Each candidate replies:

"These things I pledge myself to do."

The Admission

The Chancellor then addresses the candidates in these words:

"By virtue of the authority vested in me by the Legislature of this Province, and with the consent of this University, I admit you to the degrees to which you are entitled, and invest you with all the powers, rights, and privileges pertaining to such degrees. I charge you to use them for the glory of God and the honour of your country."

Congratulations Honorary Degree Recipient

Margaret (Marmie) Hess

Dr Margaret (Marmie) Perkins Hess of Calgary has devoted her life to gaining and sharing knowledge, to stewardship of the land and to community service.

Born in Calgary, Dr Hess studied at the University of Alberta (1934–1936), and the University of Toronto where she graduated with a BA in 1938. She then did post-graduate work in Fine Arts at the State University in Iowa. Dr Hess began her teaching career as an instructor in the history of the art of the world at the Southern Alberta Institute of Technology and Art in Calgary (1940–1947), and in handicrafts at the Banff School of Fine Arts. Through her subsequent careers as a businesswoman and community leader she continued her research, writing and lecturing at various universities, institutes, museums and art galleries throughout North America, Israel, Japan and China.

An evolving interest for indigenous peoples along with her pioneering spirit led her to Canada's West Coast and the North. She developed a strong relationship with the Inuit, living periodically in the North over a twenty-year timeframe. One of her greatest honors was receiving her Inuit name –

Angauka Nu Natsiut. Her interest in Inuit art, fused with her natural business acumen, led her to establish Calgary Galleries Ltd in 1970 where she introduced Northern art to people in Canada, the United States and elsewhere internationally. Dr Hess is regarded as a world authority on Northern Inuit and Indian art and crafts and has shared her extensive knowledge with students and scholars alike. She has been a vital player in making previously unknown art a viable economic commodity for the artists. As well, she has been invited to organize and participate in numerous conferences and exhibitions nationally and internationally.

An indefatigable supporter of Canada and particularly, her community, she has devoted many hours to serving on boards and committees of every description, and contributed to Calgary's vibrant growth from a prairie town to a thriving business, industrial and cultural center. Marmie has been a part of the establishment and the subsequent governance of museums, universities and other cultural and educational institutions and of community organizations. Some of these include the Calgary Zoological and Botanical Society, the Calgary Exhibition and Stampede, the United Way, the Chamber of Commerce, the Calgary Regional Arts Foundation, the Kananaskis Citizens' Advisory Committee and the Senates of the University of Calgary and the University of Lethbridge. She has served on the boards of the Whyte Museum and Archives of the Canadian Rockies in Banff and the Glenbow Museum in Calgary, where she is currently an Honorary Researcher and Curator Emeritus of the Inuit Collection.

Dr Hess has received numerous awards and honors including the Alberta Achievement Award, the Northwest Territories Commissioner's Award, the National Museum of Man Appreciation Award, Pioneer Women Na'amat of Canada Award, the YWCA Woman of Distinction Lifetime Achievement Award and the Paul Harris Rotary Award. In 1981 she received an Honorary Degree from the University of Calgary and was appointed a Member of the Order of Canada. She was made an Officer of the Order in 1993. She has received the Golden Jubilee Medal, the Confederation Medal, is an Honorary Fellow with the Royal Geological Society and has an archaeological site named after her.

A living mosaic of the twentieth century, Dr Hess has lived our history and has steered down channels seldom travelled by women of her generation. In all her activities, she has maintained a focus on education and is currently an adjunct associate professor (Geography) at the University of Calgary. It was while studying at the University of Alberta she absorbed our motto *Quaecumque Vera* – whatsoever things are true. Living this philosophy has enabled this extraordinary woman to follow her vision to discover and understand the human relationship with our universal environment.

Marmie continues to pursue her insatiable love of learning and sharing her expertise, most recently serving on the Advisory Committee for the Inuvut – Our Way of Life exhibition at the Glenbow Museum and co-chairing the Conference of the North held in conjunction with that exhibition. Her combination of artistic interests and business acumen in all her diverse endeavours has created knowledge legacies that will enrich future generations, not only in Alberta, but throughout the world.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Margaret Hess:

Visit of His Highness the Prince of Wales, Canada 1924. Montreal, Canada National Railways, 1924.

In September 1924 the Prince of Wales visited his ranch, the EP, in High River, Alberta. This extremely rare volume charts his travels by train from New London, Connecticut, to Montreal, then across Canada to Calgary. This detailed, annotated timetable describes the communities through which he passed, naming all the stations and arrival times. Handsomely bound in navy morocco leather, it is a unique souvenir of a bygone era.

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

History of Convocation

In the eleventh century, a new vitality quickened all aspects of the civilization of Western Europe. The creative forces thus unleashed soon found expression in new institutions, and of these the university bids fair to be the most enduring. The modern university is the lineal descendant of the university of the Middle Ages. Its purposes and organization, even much of its ceremonial, are medieval in origin.

The medieval university was originally called a *studium generale*, that is, a place of learning to which teachers and students from anywhere resorted. The first *studia* were at Salerno, Bologna, and Paris. These came into existence spontaneously and developed through the twelfth century as the needs of the time and their inner necessities dictated. In the thirteenth century these spontaneous associations crystallized into guilds or corporations endowed by Church and State with specific privileges which guaranteed the internal autonomy necessary for the vocation of study. To these corporations was increasingly applied the word *universitas* denoting the entire group of those responsible for the transmission of higher learning and the pursuit of knowledge.

By the beginning of the 14th century, two forms of university organization had appeared. At Bologna, primarily a higher school of canon and civil law to which came men experienced in ecclesiastical and secular administration, the control of the *studium generale* passed to the students; hence Bologna was a *universitas scholarum*. On the other hand in Paris and Oxford, whose dominant faculty was the Faculty of Arts, the *studium* emerged under the direction of a guild of teachers, a *universitas magistrorum*. Through its own officials, notably the chancellor (once symbol of external control and by now of internal autonomy), the guild of teachers developed its courses of instruction, administered its own affairs and admitted to its company only those who had met its intellectual standards. The University of Alberta stands in the tradition of Paris and Oxford.

Originally the goal of the medieval student was certification by the guild of teachers that he also was qualified to teach (the *licentia docendi*). With the passage of time the student's progress through the curriculum was marked by ceremonies which signified his successful attainment of a certain level (*gradus* or in modern language, degree) of competence. The Bachelor had completed his apprenticeship in the Faculty of Arts. The Master was now qualified to teach in that Faculty and was thus incorporated into the *universitas magistrorum*. The Doctor was one who, having obtained the mastership, had successfully completed the curriculum of one of the "higher" faculties (in the Middle Ages, law, medicine, and theology) and was now qualified to teach in those faculties. Inevitably the degrees of the *universitas* did more than admit their holders to the teaching profession. They served the wider social purpose of demonstrating their holders' fitness to serve the entire medieval community.

Today's ceremony stems from the medieval tradition. The procession of the guild of teachers, whose solemn assembly, or convocation, is the modern equivalent of the medieval *magna congregatio* of all faculties, is led by the Chancellor and the Chief Marshal carrying the mace, the symbol of the University's corporate authority. The academic gowns, hoods, and caps, once the sober, disciplined dress of secular clergy and teachers, declare in their various designs and colors the academic qualifications of the Faculty. The citations and presentations by the Faculty to the Chancellor attest to him and to society the degree of proficiency

attained by the students of the University. There follows a visible and public act whereby the *universitas magistrorum*, acting through its Chancellor, confers upon the students the appropriate degree. It is the act, not a certificate, which constitutes the validity of the degree bestowed. More, the formula, "I admit you" and the placing of the students' hands within the hands of the Chancellor and his associates, bind the students in the appropriate degree to the *universitas magistrorum*. The students thereafter bear for all time the mark of their association with this University. They have received what the University has been and presently is. Because they bear in themselves the promise of the future, they are what the University hopes to be. Despite its solemnity, convocation is a joyous occasion.

The history of academic dress reaches far back into early days of the oldest universities. A statute of 1321 required that all "Doctors, Licentiates, and Bachelors" of the University Coimbra wear gowns. In England, in the second half of the fourteenth century, the statutes of certain colleges forbade "excess apparel" and prescribed the wearing of a long gown. It is still a controversial question as to whether academic dress finds its sources chiefly in ecclesiastical or in civilian dress. Gowns may have been counted necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as "academic." (The mortar board—the hard, square cap commonly used as academic headdress today—evolved from the softer, more flexible "square cap" introduced in England about 1490. It is named for the square board on a handle used by stone masons for holding the mixed mortar to be applied to walls.) Both Cambridge and Oxford have made academic dress a matter of university control to the extent of even its minor details and have repeatedly issued revised regulations. In Laudian days in Oxford it was prescribed that any tailor who departed from authorized design "even by a nail's breadth" in the making of any article of collegiate costume was to be punished by the vice-chancellor of the university.

Academic dress at the University of Alberta generally follows the prescription of Cambridge University in the design of the gown, and that of Oxford University in the design of the hood. See the Academic Dress page in this program for a detailed description of the academic dress at this institution.

In addition to the apparel worn by holders of degrees conferred by the University of Alberta, a collection of apparel specific to particular offices has also been developed. The President of the University wears a green gown faced with gold braid trim and lining and a green cap with a gold tassel. The Chancellor and Chancellors Emeriti wear gowns of teal blue with silver trim and black caps with silver tassels. The gowns of the senior officials bear an embroidered crest of the University. University Governors and Senators wear stoles bearing the crest of the University over their gowns: gold for Governors and green for Senators. The University Registrar wears a green gown with gold trim on the sleeves.

Graduates and staff of the University of Alberta who wish to purchase their own academic apparel are invited to contact the Convocation Officer in the Office of the Registrar and Student Awards.

Quaecumque Vera The University Coat of Arms

On November 15, 1909, a motion by the faculty recommended to the Senate the adoption by the University of the provincial coat of arms, with the addition of an open book above the shield and the motto *Lux et Lex*; the words "University of Alberta" were to be attached as might seem fit. The present motto was substituted in January 1911 for the one originally proposed. In 1950 the representation of the coat of arms was altered to conform better to the principles of heraldic design but these arms were never actually registered.

In 1994 a new coat of arms incorporating a number of traditional symbols associated with the University or the Province, or with learning, was officially granted by the Canadian Heraldic Authority. In non-technical language, it consists of the following elements:

Shield: a representation of the topography of Alberta (wheat fields, hills, rivers, and the Rocky Mountains) derived from the provincial coat of arms, and a book symbolizing learning.

Crest: a Great Horned Owl, the provincial bird and a traditional symbol of wisdom.

Supporters: a pronghorn, taken from the provincial coat of arms, and a golden bear, long the University mascot, standing on a mound of wild roses, the floral emblem of Alberta.

Motto: *Quaecumque vera* ("Whatsoever things are true," Philippians 4:8)

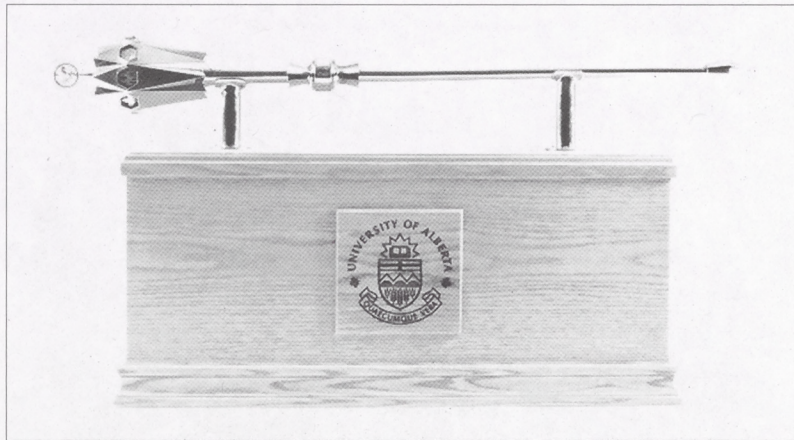

The arms are copyrighted and may not be used without permission of the Board of Governors. The name of the University is similarly protected.

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. Michael Galbraith presented the Mace on behalf of his father on May 26, 1970.

Among its elements are the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto "Quaecumque Vera" ("Whatsoever Things Are True" Phil 4:8) encircles the staff. The Mace is made of sterling silver which was rhodium plated after the insertion of the various enamelled shields which make up its elements. A special electroplate process was used to apply 24 karat gold to other parts of the Mace.

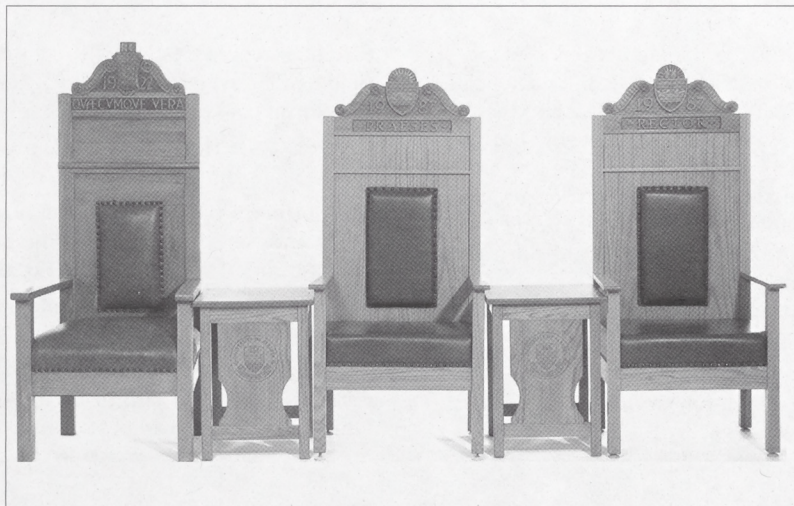

It was intended that the Mace should be modern in appearance but with medieval origins. The preponderance of visual weight at the top of the staff and the rather complex section through the metalwork at this point are reminiscent of the use of the mace as a weapon, defensive or aggressive.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power — but the power of knowledge and the importance of the University in the community.

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded leather back and seat. Above the padded-leather back is carved the University motto "Quaecumque Vera" together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of an oak stand for the University of Alberta Mace and two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

Ceremonial Colors

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point. Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Masters' hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

Doctorate Degrees

Doctors' gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctors' hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

Honorary Doctorates

Honorary Doctors of Laws (LLD), Letters (DLitt), and Science (DSc) wear a scarlet robe faced with white silk. Hoods are made in the Cambridge form of scarlet silk with a full lining of white silk. Caps are black velvet with a gold tassel.
